Objet – Re – Betreff **Organisation of Students' Mobility from and to the European Schools during the school year 2022-2023**

Dear Madam,
Dear Sir,

I would like to inform you that the mobility and student exchange programs **in the 2022-2023** school year **can be organised**.

However, the following remarks must be considered.

Since the sanitary and public health situation is different in among the Member States and the situation is constantly evolving, exchanges and mobility programs can only take place on condition that the national or local health regulations and travel restrictions are respected. Each school is requested to communicate the hygienic and travel related measures in force in the country or region hosting the school to the school community and to all parties concerned. It is recommended that these measures are shared with all the participating schools.

It is recommended to include in the communication that the school cannot be held liable for any expenses in case of cancellation of the exchange program, including travel restrictions or other conditions.

This decision covers all mobility programmes (including individual mobility) regulated by document **2016-01-D-49-en-4 (Guidelines on Organizing Students' Mobility from and to the European Schools)**.

You are kindly requested to communicate the content of this Information Note to all whom it may concern.

The Pedagogical Development Unit remains of course at your disposal for any questions you may have.

Yours faithfully,

A handwritten signature in black ink, consisting of a stylized, cursive 'A' followed by a horizontal line extending to the right.
