**Remarks :**

- In principle, it is not possible to change an option or a complementary course after the definite choice has been made.
  - The school can, in exceptional cases, allow the change if it does not modify the organization of classes, i.e. if the change concerns a class which is already planned.
  - Under no circumstance can a pupil abandon** at the beginning of the 6<sup>th</sup> year a choice of class which has been created within the limit of the required number of pupils.
  - No change will be allowed after Wednesday 18 September.**
- The 35 period limit cannot be exceeded, except for pupils whose obligatory classes' timetable and option classes reach 34 periods. These pupils can choose a single extra 2 period complementary class. The same applies for pupils who choose advanced scientific options (Math 5p + 2 science subjects). The absolute maximum is therefore 36 periods.
- The choices offered on this grid are **TEMPORARY** and could change according to the decisions of the Management.
- If a student wishes to take, e.g. Eco 4 or another L3 or L4, but has not studied the subject in the preceding 2 years, a letter requesting the right to sit a test on **22th May MUST** be sent to the Direction before **15<sup>th</sup> May, 2024**
- If a 4 period science is not offered in your subject due to lack of numbers, you will be able to take it in your L2.
- The overall choices **MUST** leave room for the inclusion of the obligatory two periods of EP.
- In row 10, please, highlight the course of your choice. In case of religion, please, specify which religion.
- Students must take a minimum of **two options** in order to fulfill the minimum number of written subjects required for the Baccalaureate. However, it is strongly advised that students consider taking **three options** in order to give themselves a choice of written examinations in the Baccalaureate examinations.
